

MASTER OF ARTS BILINGUALISM STUDIES

The Official Languages and Bilingualism Institute (OLBI (<https://www.uottawa.ca/about-us/official-languages-bilingualism-institute/>)) is offering a program leading to the Master of Arts (MA) in Bilingualism Studies. This program is intended to offer an advanced education in several areas of applied linguistics, including bi- and multilingualism, methodological and technological innovations in adult second language instruction, assessment of adult second language competence, as well as language policy and planning.

The program is offered in English and French. Students are required to take one of their two compulsory courses in English and the other in French. The electives can be taken in either language.

In accordance with the University of Ottawa regulation, students have the right to produce their work, their research paper, their thesis, and to answer examination questions in French or in English. The program is offered on both a full-time and a part-time basis. Three options are available for the program, the MA with thesis, the MA with research paper, and the MA with courses.

The institute, in partnership with Université Lyon 2, also offers a dual degree combining the Master of Arts (M.A) in Bilingualism Studies with a Master 2 Sciences du langage - Français langue étrangère.

The dual degree option, which leads to a dual degree with the Université Lyon 2, combines studies in Sciences du langage - Français langue étrangère with the Master of Arts (M.A.) program in Bilingualism Studies. Students enrolled in this option spend the winter term in the Université Lyon 2, France where they take the mandatory courses of the Master 2 program in Sciences du langage, and during the spring term they do a 65-hour unpaid teaching-research internship at the Centre des langues de l'Université Lyon 2.

The dual degree option is offered on a full-time basis, and the courses for the Master 2 at the Université Lyon 2 are taught in French.

The program is governed by the academic regulations (<https://www.uottawa.ca/about-us/leadership-governance/policies-regulations/>) in effect for graduate studies.

Admission Requirements

For the most accurate and up to date information on application deadlines, language tests and other admission requirements, please visit the specific requirements (<https://www.uottawa.ca/graduate-studies/programs-admission/apply/specific-requirements/>) webpage.

To be admitted to the MA program in Bilingualism Studies, candidates must have one (1) of the following:

- An honours bachelor's degree or equivalent in Second Language Teaching / *Didactique des langues secondes*, in Applied Linguistics or in a related discipline.
- A three-year bachelor's degree in Applied Linguistics or a related discipline in addition to a university-level, university-administered advanced certificate in TESOL (Teaching of English to Speakers of Other Languages), representing a minimum of 30 units.

The minimum admission average is 70% (B), calculated in accordance with graduate studies guidelines.

Once admitted to the Master of Arts (M.A.) program in Bilingualism Studies, students can apply for the dual degree of Master of Bilingualism Studies (University of Ottawa) and Master 2 Language Studies - French as a Foreign Language (Université Lyon 2), by contacting OLBI's Director of Graduate Studies. They should also send an email confirming their interest in this option to: artsgrad@uOttawa.ca.

Language Requirements

All applicants must be able to understand, speak and write either English or French proficiently. Applicants whose first language is neither English nor French must provide proof of proficiency in one or the other. The list of acceptable tests is indicated in the specific requirements (<http://www.grad.uottawa.ca/Default.aspx?tabid=2001>) of the program.

Additional Coursework

The Admissions Committee may, depending on the students' academic background, require them to complete one or two additional courses beyond the basic MA degree requirements.

Research

Research at the University of Ottawa

Located in the heart of Canada's capital, a few steps away from Parliament Hill, the University of Ottawa ranks among Canada's top 10 research universities. Our research is founded on excellence, relevance and impact and is conducted in a spirit of equity, diversity and inclusion.

Our research community thrives in four strategic areas:

- Creating a sustainable environment
- Advancing just societies
- Shaping the digital world
- Enabling lifelong health and wellness

From advancing healthcare solutions to tackling global challenges like climate change, the University of Ottawa's researchers are at the forefront of innovation, making significant contributions to society and beyond.

Research at the Faculty of Arts

The Faculty of Arts is proud of the state of the art research conducted by its professors. In the spirit of showcasing its research to the university community as well as to the general public, the Faculty has created three activities: Dean's Lecture Series, Treasures of the Library, and Excellence Lectures.
