HONOURS BACHELOR OF COMMERCE (OPTION IN INTERNATIONAL MANAGEMENT) AND MASTER OF SCIENCE IN MANAGEMENT

Overview Honours Bachelor of Commerce (Option in International Management)

The option in international management is designed to help students develop an understanding of the distinctive problems that arise in international business and to develop strategic decision-making skills in relation to those problems. Students also have the opportunity to broaden their knowledge in a particular area of international management.

Compulsory courses study the global business environment, including general concepts and international institutional framework, as well as the development and implementation of policies and strategies by multinational corporations. Students should note that these concepts are examined from the perspective of Canadian corporations. Students also have the opportunity to begin learning a third language (other than English and French).

Students in the International Management option must complete at least 12 of the 120-unit program requirement abroad as part of an international exchange with one of the Telfer School of Management's international partner institutions.

This program is offered in English and in French. Students are encouraged to learn a third language.

Master of Science in Management (Research Project)

This exciting integrated accelerated bachelor's/master's program allows students to earn two degrees in five years. Designed for students with a strong academic record and a keen interest in conducting business research, this integrated program enables select undergraduate students to get a jump-start in their project-based master's program by completing two graduate courses during their last year of the undergraduate degree, and starting their research project in a familiar environment over the summer bridge term between the bachelor's and master's programs. This integrated program focuses on empowering students to develop their business acumen and research skills in a specialized field of study, and to contribute towards smarter decisions about policy and practice in creating a better Canada.

This program is offered in English only.

1

For further information on this Dual Fast-track Degree, please communicate with the Student Services Centre via undergraduate@telfer.uOttawa.ca.

Program Requirements Honours Bachelor of Commerce (Option in International Management)

The French immersion stream is available with the Honours Bachelor of Commerce.

The MSc in Management program is offered in English only.

Requirements for this program have been modified. Please consult the 2021-2022 calendars (http://catalogue.uottawa.ca/en/archives/) for the previous requirements.

Compulsory Core Courses

Compulsory	courses at the 1000 level	
ADM 1300	Introduction to Business	3 Units
ADM 1301	Business and Society	3 Units
ADM 1305	Mathematics for Business	3 Units
ADM 1340	Financial Accounting	3 Units
ADM 1370	Applications of Information Technology for Business	3 Units
ECO 1102	Introduction to Macroeconomics	3 Units
ECO 1104	Introduction to Microeconomics	3 Units
ENG 1131	Effective Business English	3 Units
Compulsory	courses at the 2000 level	
ADM 2302	Business Analytics	3 Units
ADM 2303	Statistics for Management	3 Units
ADM 2304	Applications of Statistical Methods in Business	3 Units
ADM 2320	Marketing	3 Units
ADM 2336	Organizational Behaviour	3 Units
ADM 2337	Human Resource Management	3 Units
ADM 2341	Managerial Accounting	3 Units
ADM 2350	Financial Management	3 Units
ADM 2372	Management Information Systems	3 Units
ADM 2381	Business Communication Skills	3 Units
Compulsory	courses at the 3000 level	
ADM 3301	Operations Management	3 Units
ADM 3318	International Business	3 Units
Compulsory	courses at the 4000 level	
ADM 4311	Strategic Management	3 Units
Electives		
15 elective of	course units from another faculty ^{1, 2}	15 Units
9 elective co		9 Units
Total:		87 Units

Note(s)

1 A maximum of 6 course units at the 1000 level can count towards this requirement.

2

Amongst the 15 course units from another faculty, students must complete 6 course units from a third language and/or related culture course. Please consult the list of language or culture courses (http:// www.telfer.uottawa.ca/bcom/en/your-program-of-study/programoptions/international-management/) available.

International Management Option

ADM 3319	Cross-Cultural Management	3 Units

No culture courses are allowed for this requirement.

Mandatory Requirement: International Exchange

Students in the International Management option must complete at least 12 of the 120-unit program requirements abroad as part of an international exchange with one of the international partner institutions of the Telfer School of Management. At least one and at most two fulltime semester(s) of study abroad (minimum 12 units per semester abroad) must be completed. During the exchange, students must take business courses or third language courses. The normal load of an international exchange study session is 15 units.

Units completed as part of the international exchange session(s) may count towards partial or complete fulfillment of:

- · any of the 12 elective units listed under the International Management option requirements, provided the courses offered at the international partner institution are considered equivalent to the corresponding Telfer School of Management courses;
- the 15 course units in administration (ADM);
- the 15 course units from another faculty.

1

Students must attend at least 4 seminars during their studies.

2

MGT 7108 can be replace by an elective course from another concentration or another faculty.

3

This requirement may be fulfilled by MGT 5101, MGT 5102 or a course in another concentration or another faculty.

Specific requirements for the master's program

Research Project

The Research Project (RP) is a capstone program component that requires students to conduct applied research with a partnering organization or as part of a Telfer faculty member's on-going research project. Students must show the ability to work independently (analysis and report writing) and apply knowledge gained in the MSc seminars to a well-defined practical problem. It is not required that the RP makes an original contribution to scholarly literature. Students are discouraged from collecting primary (original) data from human participants given the time taken to receive ethics approval and the short time frame given to complete the RP (3-4 months).

The RP can be theoretical, such as a literature review in which the student demonstrates how the existing academic literature can provide practical insight into a specific problem. It can also be empirical by using primary data (previously collected by a supervising faculty member) or secondary data (e.g., publicly accessible databases; results reported in published or unpublished research papers) to answer relatively simple research questions. Examples could be a replication of previously published research and a focused meta-analysis. Given the program's focus on facilitating evidence-based practice, the RP's central aim is giving students the opportunity to use their advanced research skills for informing practice within one organization or several organizations dealing with the same problem.

RP topics must be approved by the Telfer faculty member(s) responsible for coordinating RPs in the students' concentration. The completed RPs will be evaluated (pass/fail) by the same faculty member(s).

Co-op Option

The co-op option is only available to students enrolled in the the research project option.

Co-op students must enroll full-time and complete two work terms:

- ADM 6001
- ADM 6002

Management Research Seminar Series

Students must enroll continuously in Management Research Seminar Series (MGT 6191) from the beginning of their program and must attend at least four seminars in the series if they are in the one-year or CO-OP project-based options, and at least six seminars in the series if they are in the two-year thesis-based option. The notation "CTN" (for continuing activity) will be entered for each term until successful completion of the seminar requirements. The program director will confirm attendance and active participation.

Duration of Program

The one-year with Research Project option can be completed in three terms or approximately 12 months. The maximum time allowed for completion of this option is two years.

The CO-OP with Research Project option can be completed in either five or six terms (approximately 20 or 24 months). Students preferring to complete this option in five terms are encouraged to take more than two courses during the first winter term. Also, completion within five terms requires that students get approval for their project's topic and scope by the end of the second fall term. The maximum time allowed for completion of this option is four years.

The two-year with thesis option can be completed in six terms or approximately 24 months but can also be more quickly. The maximum time allowed for completion of this option is four years.
