HONOURS BACHELOR OF HEALTH SCIENCES POPULATION AND PUBLIC HEALTH OPTION

The Honours Bachelor of Health Sciences program is defined by its integrative approach for studying health. Students are provided with a biosciences background, knowledge of quantitative and qualitative methodologies, along with an interdisciplinary approach to study the determinants of health. This unique academic program allows students to discover innovative ways to examine, measure and unravel complex health problems at all life stages, in Canada and around the world.

The Population and Public Health option will further students' interdisciplinary health sciences training grounded in population health and public health theories and methodologies that remain the foundation of Canada's healthcare system. Students will appraise health scenarios from local and global perspectives, critique health frameworks, develop health interventions including health promotion strategies, distinguish structural and systemic causes of health disparities, and evaluate contributions of intersectoral collaborations in health.

Graduates will be well-prepared to undertake health-related MSc programs or pursue careers in public or private health agencies, non-governmental health organizations or in community health programs. Students are provided with the necessary foundation further studies in medicine, rehabilitation studies, dentistry or pharmacy. Our interdisciplinary focus enhances the quality and maturity of future clinicians and health professionals

This program is offered in English and in French.
