

MICROPROGRAM CAPITAL MARKETS

This microprogram complements and enhances a student's academic experience at the Telfer School of Management through experiential learning, professional mentorship, and specific academic courses. Students undertaking the Microprogram Capital Markets are also part of the two-year Capital Markets program. Students will be exposed to the challenges that portfolio managers and investment analysts face daily. Students manage real dollars and are held accountable by a Board of Advisors and Investment Committee comprised of top industry professionals. The program's mentorship offering provides students with an opportunity to connect with and seek advice from experienced finance professionals. Having participants follow specific academic courses prepares students with the knowledge required to become the financial leaders of tomorrow.
