

# MINOR IN ENVIRONMENTAL STUDIES (BILINGUAL PROGRAM)

Environmental studies delve into some of the most significant issues of our day, such as anthropogenic climate change, urban pollution and possible threats to human health. You learn how to use applied research tools and management principles that can be applied in a variety of areas, such as conducting environmental impact assessments and resource management.

This is a bilingual program.

## Program Requirements

The table below includes only discipline-specific courses. Please refer to the Academic Regulations (<https://www.uottawa.ca/about-us/policies-regulations/academic-regulations/b-2-program-studies/>) for information on including a minor in your degree.

At least 6 course units specific to the program, excluding bilingual courses, must be taken in the second language.

Requirements for this program have been modified. Please consult the 2020-2021 calendar (<http://catalogue.uottawa.ca/en/archives/>) for the previous requirements.

### Compulsory courses

|          |                                                     |         |
|----------|-----------------------------------------------------|---------|
| BIO 1130 | Introduction to Organismal Biology                  | 3 Units |
| ECO 1104 | Introduction to Microeconomics                      | 3 Units |
| ENV 1101 | Global Environmental Challenges                     | 3 Units |
| GEG 1301 | The Physical Environment                            | 3 Units |
| ENV 2301 | History of Environmental Thought                    | 3 Units |
| GEG 2320 | GIS and the Digital Earth                           | 3 Units |
| ENV 3321 | Human and Policy Dimensions of Environmental Change | 3 Units |

### Optional courses

|                               |                                                               |         |
|-------------------------------|---------------------------------------------------------------|---------|
| 3 optional course units from: |                                                               | 3 Units |
| BIO 2129                      | Ecology                                                       |         |
| ECO 2118                      | Introduction to Environmental and Natural Resources Economics |         |
| POL 1102                      | Politics and Globalization                                    |         |
| 6 optional course units from: |                                                               | 6 Units |
| ENV 3101                      | Legal Context of Environmental Issues                         |         |
| ENV 3303                      | Health Geography                                              |         |
| GEG 3107                      | Geography of Polar Regions                                    |         |
| GEG 3302                      | Natural Resource and Environmental Management                 |         |

**Total:** 30 Units
